A NAME SHAPED BY MEMORY, MOVEMENT, AND BECOMING.

Hériter

'Hériter' infuses Korea's timeless aesthetics and ancestral craftsmanship into contemporary kitchenware. We seamlessly integrate cultural heritage into daily life, not simply preserving traditions, but evolving them for future generations.

To us, heritage is not only about the past. It is a living spirit that moves through time, shaped with care in the present and carried forward into the future.

By bringing tradition into contemporary life, Hériter aspires to become a heritage of its own for generations to come.

CONTEXTUAL

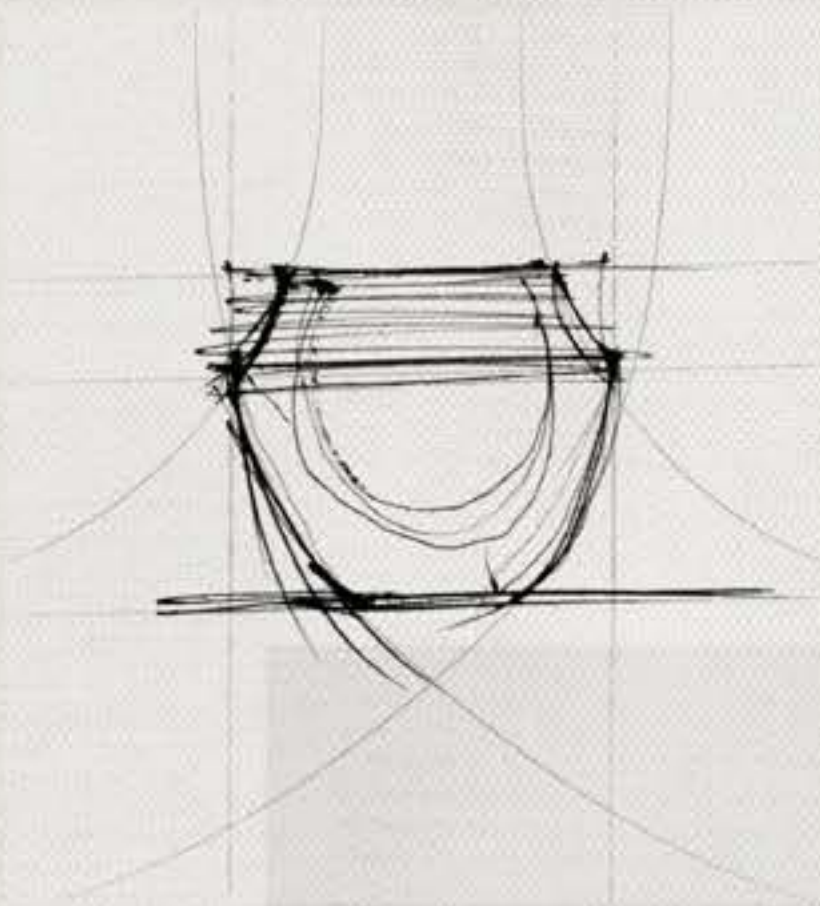

FUNCTIONALISM

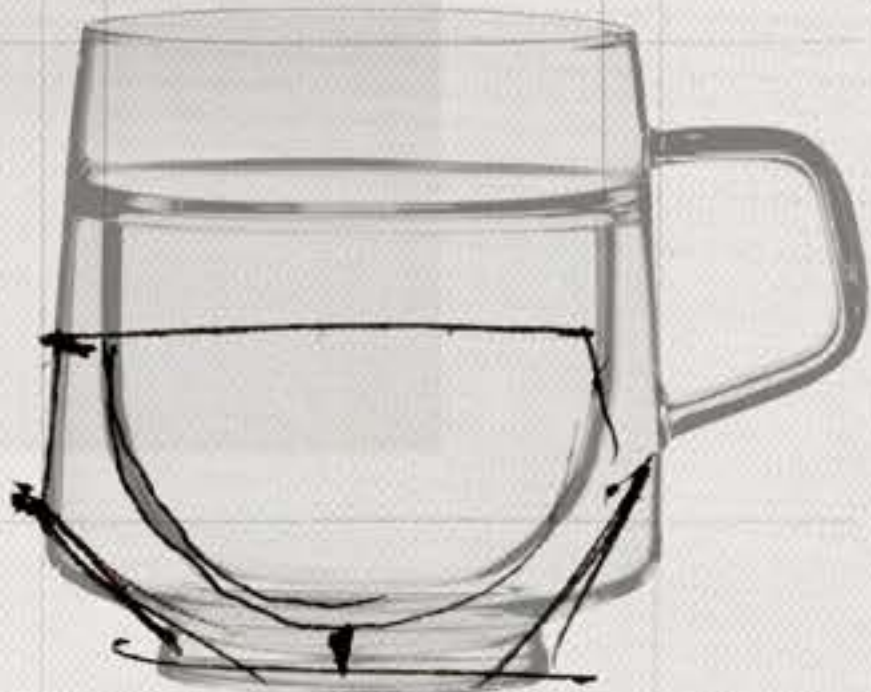

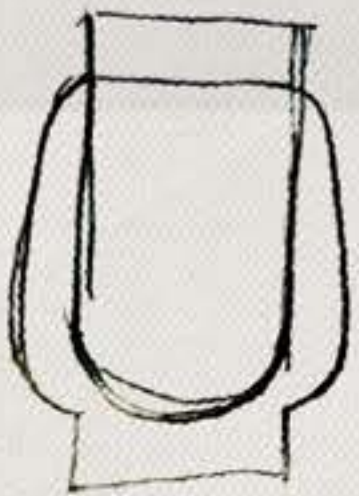

Our beginning is 'function' with a clear purpose. Every design must serve a distinct purpose and offer true convenience, because beauty without purpose is void.

Yet, meaning is completed through 'context,' shaped by place, culture, time, and emotion. Values that cannot be explained by function alone are realized through context.

The two axes are inseparable. Only when function and context unite does a product truly become 'Hériter'.

GAYA GLASS SERIES DESIGN

01 KNIVES

Our standard knife series, including a chef's knife, paring knife, bread knife, and Chinese chef's knife, offers exceptional cutting power with micro-serrated edges. The stepped blade processing reduces food sticking by 90% compared to conventional knives.

OCTAGONAL SOBAN

NATIONAL MUSEUM OF KOREA,
KOREA - JOSEON COLLECTION NO. GEONHEE 4543

CHEF'S KNIFE

COLOR WALNUT SPEC STAINLESS, WPC, WALNUT | W320(MM)
VERSATILE BLADE SUITABLE FOR CUTTING VEGETABLES, MEAT, AND FISH.

1 OCTAGONAL HANDLE

The 8-sided design provides a stable grip.

2 FAS GRADE WALNUT

Its dense grain is resistant to moisture, warping, and cracking.

3 WPC BOLSTER

WPC Bolster: The seamless WPC structure inhibits bacterial growth and resists moisture.

4 DUAL-POLISHED SPINE

The dually polished spine enhances grip comfort.

5 STEPPED-CURVE PROCESSING

A precision technique that reduces food sticking by 90%.

6 0.3MM MICRO-SERRATION

Special processing enhances cutting power and slows blade wear.

PARING KNIFE

COLOR

WALNUT

SPEC

STAINLESS, WPC, WALNUT

SLIMCAST™
IRON PAN SERIES

A cookware series that combines the deep flavor of cast iron with modern convenience to make daily cooking easy and delicious. The safe Trishield™ triple-layer non-stick coating allows for easy use without seasoning, and SlimCast™ technology reduces unnecessary weight while retaining cast iron's heat retention.

MONGDOL

KOREA : NATURALLY FORMED COASTAL PEBBLES

SLIMCAST™ IRON PAN SERIES

1 SLIMCAST™ LIGHTWEIGHT CAST IRON

A precision manufacturing technology that reduces unnecessary weight while maintaining the heat retention performance of traditional cast iron.

2 TRISHIELD™ NONSTICK COATING

A triple-layer surface technology of nitriding, enamel, and Xylan® coating that eliminates the need for seasoning and provides rust prevention,

3 MULTI-PURPOSE DESIGN

A wider and deeper structure than standard pans, suitable for stir-frying, braising, and steaming, with an optional lid for oven-style cooking.

4 ERGONOMIC DESIGN & OIL ROAD

An ergonomic design provides a comfortable and hygienic grip, while the nature-inspired oil road enhances flavor through the Maillard reaction.

HÉRITER X EASTERN EDITION GLASS SERIES

A collaborative glass series by Hér iter and Eastern Edition that modernly reinterprets the era-specific sculptural beauty of Korean ceramics—from earthenware to white porcelain—using the contemporary material of glass. The form and texture of each era are realized through the glass's color, transparency, surface finish, and light reflection.

HÉRITER X EASTERN EDITION GLASS SERIES

1 TOGI TEXTURE

The rough, earthy texture of traditional earthenware is recreated on glass through mold forming and high-temperature heat treatment.

2 CHUNGJA JADE

The jade-like transparency of Goryeo celadon is captured in a subtle, pale green glass.

3 BUNCHUNG GRAIN

The white slip patterns of early Joseon buncheong ware are expressed with a three-dimensional effect through a glass frit mixed blowing technique.

4 BAEKJA SATIN

The pure, understated beauty of late Joseon white porcelain is realized through a full matte sandblasted finish.
